

Tenaska, with a presence in Fluvanna County for more than 20 years, is considering an additional natural gas-fueled power plant in the area. Similar to the existing Tenaska Virginia Generating Station, this facility would add reliability to the regional electric grid amid growing power demand, as well as generate tax revenue, jobs and other local economic benefits.

Tenaska is developing a natural gas-fueled power plant capable of generating up to 1,540 megawatts (MW), enough for 1.5 million homes. Natural gas remains the cleanest fossil fuel for dispatchable and reliable power generation, and the market demand for natural gas generation is growing. In fact, the Expedition Generating Station project has been selected by PJM Interconnection as a critical resource to ensure the reliability of the region's electric grid.

## Economic Benefits for Fluvanna County

An additional natural gas-fueled power plant will have a positive impact on Fluvanna County. A 2025 economic impact study<sup>1</sup> from Mangum Economics projects significant benefits from the Expedition Generating Station.

### Construction

\$20.3 million in economic output<sup>2</sup> to Fluvanna County, including:

- o 66 direct and 50 indirect/induced job years (full-time equivalents), with \$7.5 million in wages
- o \$9.7 million in sales and use taxes

\$445.6 million in economic output<sup>2</sup> to the Commonwealth of Virginia, including:

- o 1,188 direct and 854 indirect/induced job years (full-time equivalents), with \$170.6 million in wages
- o \$41.7 million in sales and use taxes

### Operations (Annually)

\$75.2 million in annual economic output<sup>2</sup> to Fluvanna County, including:

- o 29 direct and 53 indirect/induced job years (full-time equivalents), with \$8.8 million in wages
- o \$8.3 million of property tax revenue<sup>3</sup>

\$90.6 million in annual economic output<sup>2</sup> to the Commonwealth of Virginia, including:

- o 29 direct and 106 indirect/induced job years (full-time equivalents), with \$13.4 million in wages

### Long-Term Tax Revenue

\$247.7 million in tax revenue to Fluvanna County over 30 years of operation

- o \$14.3 million/year during the first 5 years of operation
- o \$8.3 million/year on average for 30 years

The Expedition Generating Station represents a forward-looking investment in reliable energy and a continued commitment to Fluvanna County's economic success. This is in addition to the stable and reliable benefits that Tenaska Virginia Generating Station has provided for more than two decades.

≈1,400 construction jobs over a 20-month period, with ≈\$45 million (2004 dollars) in wages

≈\$30 million (2004 dollars) spent on construction-related goods and services, including purchases from 237 Virginia companies

29 local operations jobs that in 2024 resulted in \$9.8 million in employee salaries and payments to local contractors and vendors

\$34.9 million in local property taxes to date

Support for various local efforts and organizations, either through volunteer hours and/or monetary support, including \$100,000 in college scholarships for area high-schoolers

<sup>1</sup> Project Expedition: Economic & Fiscal Contribution to Fluvanna County and to the State of Virginia. Prepared for Tenaska by Mangum Economics, August 2025.

<sup>2</sup> Economic output is all economic activity in a local economy, inclusive of wages and taxes.

<sup>3</sup> Based upon 30-year average
